**Subject:** Re: Draft BIA access letter

Hello Ms. Reeves,

If there is no investigative work being planned for the site visits, why do you need access to the allotments at Section 18 13N 10W and Section 24 13N 11W? Would the access be for EPA contractors?

As you probably know, any entry to Individual Indian Allotment for any "Permission-to-Survey" work for a right-of-way must comply with 25 CFR 169.4.

As well, the legal folks are still reviewing the situation so I do not want to encourage or make a decision that might complicate the situation.

If you have any questions, please let me know.

Thank you.

Best regards,  
 Lester K. Tsosie, MPA, MBA

Joan left me a message last week while I was out of the office. Today is my first day back and I will be giving her a call today to discuss.

Thanks everyone.

Hello Mr. Tsosie,

Just checking to see if BIA has had a chance to review the attached letter.

Much appreciated!

**Subject:** RE: Draft BIA access letter

Mr. Tsosie,

We have revised the letter to include the information requested by Director Pinto. Also, we shared the letter with Navajo DOJ and their edits are incorporated. The Navajo Superfund Program had a chance to review the letter, too. Would it be

possible to get a response from BIA by August 17?

We are planning to conduct a site tour of the Haystack mines in the coming weeks (including allotted land on Section 18 13N 10W and Section 24 13N 11W). This will not involve any investigation work. We plan to notify the residents of this visit. Please advise if we should do anything else.

Many thanks!

Linda

**Subject:** Re: Draft BIA access letter

Looks good.

I would prefer the language for the referenced USC cite be stated in the letter. The sentence should start with, In accordance with USC ....., USEPA has authority to access your allotment for specific reasons provided in the attachment.

Sorry, I'm working off my cell phone.

We can send to our Solicitor tomorrow. I will be out of the office but the Acting can sign and send forward.

Thank you.

Hello Mr. Tsosie,

Thank you for meeting with us this week to discuss access at the Navajo abandoned uranium mines.

Based on Director Pinto's suggestions, we drafted the attached letter for your review. A general letter such as this could be signed just once. Then for each site we will provide BIA, the residents and allottees with an attachment describing the specific activities to be undertaken.

Feel free to have your counsel contact Sarah Mueller if they have questions. She can be reached at [Mueller.sarah@epa.gov](mailto:Mueller.sarah@epa.gov) and 415-972-3953.

Best regards,

Linda
